Create method

Method details

Method type

GET	▼

Integration type

● Lambda function	● HTTP	● Mock
Integrate your API with a Lambda function.	Integrate with an existing HTTP endpoint.	Generate a response based on API Gateway mappings and transformations.
λ	HTTP	‹ Mock ›

● AWS service	● VPC link
Integrate with an AWS Service.	Integrate with a resource that isn't accessible over the public internet.
aws	☁

�う Lambda proxy integration

Send the request to your Lambda function as a structured event.

Lambda function

Provide the Lambda function name or alias. You can also provide an ARN from another account.

us-east-2 ▼	🔍 arn:aws:lambda:us-east-2:008971650126:function:get_ap	✕

> ●Grant API Gateway permission to invoke your Lambda function. To turn off, update the function's resource policy yourself, or provide an invoke role that API Gateway uses to invoke your function.

�う Default timeout

The default timeout is 29 seconds.
